Löndon 96030a.

The Annual Survey of the water tube donkey boilers became due at the end of December last.

In reply to enquiry the Owners' London Agents now write as follows:-

"We have to inform you that, according to Owners' requirements the vessel will be maintained only in the class of the Register U.S.S.R. and we have not received instructions to carry out the survey required by your goodselves.

IT IS SUBMITTED the vessel's class be withdrawn from the Register Book and three dots (...) inserted in lieu, indicating withdrawal of class at Owners' request.

Withdraw class.
