Dear Sirs,

n.v. "MYTONGATE" Engine No. 96204.

I am in receipt of your letter of the 8th instant regarding the torsional vibration characteristics for the above installation and have to advise you that the remarks contained therein would appear to be substantially the same as those contained in your letter of the 21st June, 1948, addressed to The Goole S.B. & R. Co. Ltd., a copy of which has been forwarded to this Office, by the Society's Hull Surveyors.

In the circumstances, it is thought you may be interested to read the reply which was sent to the Hull Surveyors on the 12th July, and a copy is accordingly enclosed.

Yours faithfully,

pro Secretary.
