Surveyed afloat and/or in D.D. **afloat**

Last date of examination in D.D.

Has a Load Line Survey been held? **no**

Freeboard Marks verified

State which additional Rpt. 8 is attached: (Cont); (PS); (DR); (EQ); (Rig)

Survey fees

Damage fee

Expenses

S.A. fee

I have surveyed the above ship in accordance with the Rules for ascertain that the hull was tight in the fore part.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated.

Master's statements : "During the voyage from GDYNIA to CASABLANCA (19/I/63 to 26/I/63), the vessel sailed in ice in West Baltic, Kiel canal and Elbe river until Heligoland. Paint of the hull is disappeared on the water line.

In Biscay bay and from Cap Sain-Vincent to Casablanca the vessel suffered a heavy weather and, being on ballast, the forward bottom gave big shocks against the sea.

The fore peak, tanks n° 1 and 2 port and starboard were emptied and sounded for 16 hours and it was ascertained that there was not any leak.

I recommend that ~~the bottom be specially examined at the next dry-docking.~~ the fore part of the bottom be specially examined at the next dry-docking.

Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)
