Dear Sirs,

M.S. "CHOPIN"

The Committee have today had before them the question of the overdue Auxiliary Boiler Survey that was partly held last May. This survey actually fell due in August, 1961, and it is noted from your letter of the 3rd August that the Owners stated they would arrange for the matter to receive attention at the first port of call where we have a resident Surveyor.

The Committee have noted this fact, but desire the Owners to appreciate that if the inspection is not completed by the time the vessel reaches Poland, the Committee must rely on the matter then receiving attention without fail.

Yours faithfully,

Clerk to the  
Classification Committee

The Surveyors,  
GDANSK
