Ship Surveyor

No. /

Received from Chief Ship Surveyor

ME

"CARINI"

REPORT

Spz.

No. 21511

marks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

Endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points noted in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

This ship was built in 1944-11.

The SPEZIA Surveyor reports (5,56), ship examined in dry dock, bottom coated and various recommendations for wear and tear and damage commenced but not seen completed as at this stage the Owners decided to retain the classification of the ship with the Registro Italiano only, and requested the withdrawal of the Society's class.

The above information has already been received by London Office, and in a letter dated 15.5.56 the Committee gave instructions for a notation to be recorded in the Register Book indicating that the class of the ship had been withdrawn at Owners' request.
