Telegrams: Committee, Fen, London

Telephone: ROYal 3551 (6 Lines)

30th April, 1957.

Classn(S)
DJH

Dear Sirs,

Motorship "STANVALE"

The Gothenburg Surveyors have reported that the spanner exhaust gas economiser fitted on the above ship was made by Messrs. Wright's Forge & Engineering Co., Liston, and covered by your report No. 285. The Gothenburg Surveyors state the economiser is marked:-

W.F.E.105
Spanner Boiler No. J1718
No. 285 BHM
Lloyd's Test 275 lbs.
WP 149 lbs.
11.10.56 D.P.

According to the records in this Office, Birmingham Report No. 285 refers to Boiler No. J1538 which has already been fitted in a vessel built at Glasgow. It appears, therefore, that Boiler No. J1718 has been stamped as Report No. 285 instead of Report No. 303 and I shall be glad if you will amend the records in your Office accordingly.

Yours faithfully,

pro Clerk to the
Classification Committee.

The Surveyors,
BIRMINGHAM.
