

WOKINGHAM COPY.

S

Enclosures

22nd February, 1941.

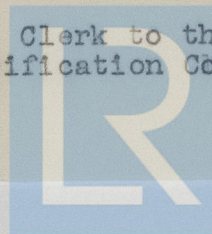

Dear Sir,

I am in receipt of a report from the Society's Surveyors at Cardiff in the case of the steamer "MARI II" No. 89074 in the Register Book, from which it appears that they have carried out a damage survey and General Examination of this vessel. This ship was formerly classed with the Bureau Veritas and the Surveyors have forwarded the certificate of class together with the plans of midship section and general arrangement. These documents are forwarded herewith and I shall be obliged if you will kindly arrange for the plans to be examined with a view to eventual classification with this Society. It will be appreciated if you will return the enclosed documents in due course.

I am, Dear Sir,
Yours faithfully,

The Secretary,
C.S.S. Department,
GLASGOW.

Clerk to the
Classification Committee.
