Dear Sir,

SERVICE SHELL VI.

We would advise you that the services of the above barge, at present owned by an Associated Company in France, are urgently required for harbour work at the port of Suez, and having in view that her present class is limited "for service between Port en Bessin and Dieppe", we shall feel obliged if the Committee will extend her class for a voyage in tow, unmanned, from Le Havre to Suez, where she will be stationed in future.

For your information, the barge is being transferred to British Registry, and in view of the urgency of the matter, arrangements have already been made for her to be ready to commence the proposed voyage in tow on Monday next.

We shall therefore greatly appreciate your early attention to this matter, also confirmation that the Le Havre Surveyor has the necessary instructions.

Yours &c.....
