Dear Sir,

S.S. " PENELOPE "

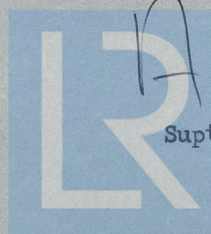

We wish to refer to the survey carried out at Rotterdam on the above named Vessel's propeller on the 19th August 63 and we have the pleasure in advising that it is Owners' intention to drydock this Vessel in order to change the propeller on her next call at Rotterdam, around the middle of October.

At the same time, docking, boiler, and safety equipment surveys will be carried out, and in order to avoid any further delay in Vessel's trading, we suggest that the safety equipment and boiler surveys should be started at Immingham where she is expected around the 9/10th October for discharging a full cargo.

Confirmation of exact dates of arrivals will be given to you as soon as known so that you may advise your local surveyors accordingly.

Thanking you in anticipation, we remain,

Yours faithfully,  
TODOS MARES S.A.M.,

Supt. Engr.
