Royal Bank Buildings,
28, Constitution Street,

Leith, 12th February, 1948.

Edinburgh, 6.

Dear Sir,

s.s. "MONARCH OF BERMUNDA".

With regard to the survey now being held on the above vessel for an Interim Certificate to enable her to proceed to America for permanent repairs, it is now expected that she will be dry docking at Rosyth for cleaning the bottom and shipping the rudder.

We shall be pleased to learn whether it will be necessary to issue a Load Line Certificate for the voyage, and if so, whether any further particulars will be required.

The requirements in your letter of the 10th instant regarding the testing of the H.E. steel is receiving attention, and we shall be pleased if you will send us the midship section for the identification of these plates.

Yours faithfully,

THE SURVEYORS.

Per.

W. W. W. W.

The Secretary,
LONDON.
