Classn(S)

REC

11 6 NOV 1954

9th November 1954

Ans'd.

Dear Sir,

RIO GUADIANA - Rio Rpt. No 5920

I am in receipt of your classing letter of the 5th instant with reference to the above named vessel from which it is noted that the figure "1" has been assigned. The owners intimate that the further 30 fathoms of chain cable will be shipped on the vessel's return to this port shortly.

As you conclude the overall length of the ship is 346.7 feet.

With reference to the question of the MN I wish to point that only the Nominal Horse Power as per Greenock Report No. 23110 was stated, as for previous sister vessels. The machinery numeral in accordance with the formula  $\frac{BHP}{5}$  is 630.

The owners have been advised of the decision of the Committee that the figure "1" has been assigned in the cases of the vessels "RIO MONDEGO" and "RIO TEJO".

Yours faithfully,

M. Caldwell

Surveyor to Lloyd's Register.

The Secretary  
LONDON.
