No. 50983

For your information and correction of Register Book records we have to advise you that this vessel is in drydock at this port.

Upon our request for permission to carry out the normal drydocking survey and survey of repairs to the machinery we were informed that these surveys would not be necessary.

Accordingly we wrote to the Navy Department at San Fernando Naval Base requesting confirmation that this vessel was to be retained in class.

Today we have received a written reply from this department stating that it is not intended to retain the vessel in class.

The Secretary,
LONDON.

Yours faithfully,

The Surveyors,
