Tanker "LIBURNIA"

The question of splitting the date of build in cases in which the erection prior to launch has taken a long time, was dealt with by the Classing Committee at some length today in connection with two more Spanish cases.

I explained to them that I had already written to Mr. Scott on the general question and it was agreed that the matter should be brought up at the Special General Committee Meeting to be held on the 19th instant.

Meantime, the suggestion made that the tanker "LIBURNIA" should be given a split date of build "Commenced 1942 - Completed January 1947" was not to be acted upon.
