LAPPA.

Dear Sirs,

M.T. Adama & Barges - Surveys.

We wish to institute surveys on the above vessel and barges  
on a Continuous Survey basis.

Two prints each of the Adama, Stern Barges, Forward Barges  
and Centre Barges are attached to enable you to split up the vessel  
in accordance with the survey procedure to be adopted in this  
instance.

With regard to the barges there are alternatives in that each  
barge could be divided into four items, one for each tank and  
the ballast tanks listed with two of the main compartment tanks,  
we consider such barges as separate unit and divide the barge  
main up accordingly. Further prints of the above drawings are  
available as required and we trust that the above arrangements  
met with your approval.

Yours very truly,

E.A.C. Musgrove,  
OPERATIONS MANAGER.

COAA.

Closure.
