The instructions contained in your letter of the 29th ultimo were transmitted to the Mobile Surveyor who advises that he called on board this vessel on her arrival.

However, due to the fact that the vessel was discharging, he was unable to carry out the Freeboard Survey. The Master stated that it was intended to have the Boiler and Annual Freeboard Surveys carried out on the vessel's arrival at Hamburg about the 26th instant. The boilers were under steam and should not be surveyed.
