

REC'D NEW YORK NOV 6 1957

November 4, 1957

Surveyor  
Society's Register of Shipping  
Sottoripa 1A/112 (10th Floor)  
Genoa, Italy

SS "STAR"

Sirs:

Herewith enclose copy of correspondence from the New York office of the Society, together with copy of Hull and Machinery Report, issued by the Baltimore Surveyor and Hull Interim Certificate issued from this office in connection with recent surveys conducted aboard the above vessel.

The Owners Representative has requested that completion of the Special Survey of Hull and Machinery be deferred until vessels arrival at Italian Port at the end of present voyage, where it was stated, the vessel will be laid up for some time.

Damage to the port side shell plates, abreast the forward end of No. 1 Hatch was examined at this port, and found to continue to be efficient for the contemplated voyage to Italy; no other items being dealt with at this time.

The vessel left Newport News on November 3rd inst., and stated Bound for Genoa.

Yours faithfully,

*W. D. Wardle*
