GENERAL REMARKS (State quality of workmanship, opinions as to class, &c.) The boiler has been built under special su
accordance with the Rules and approved plans, and the workmanship and material is good. It has been satisfactor
tested to 380 lbs. by hydraulic pressure in presence of the undersigned. It has been forwarded to S. Portland,
to be fitted on board, and when this has been done in accordance with the rules, the vessel will be eligible in
opinion to receive the notation + L.M.C. with date, and 220 lbs and FD in the Register Book.
