

WOKINGHAM COPY.

4th. June 1945.

Dear Mr. Pilditch,

In dealing with the First Entry Report on the steamer "ASHBY PARK", it is observed that on the two Montreal reports numbered 8409 the Boiler Certificate numbers are given as 4576 and 4577, although the first of these numbers has already been assigned to one of the boilers of the steamer "ROCKWOOD PARK", and the latter to a boiler fitted in the steamer "VICTORIA PARK".

As these numbers are recorded here for identification purposes, in case the boilers are later fitted into other vessels, I shall be obliged if you will kindly ascertain and let me know the correct boiler certificate numbers for the vessels in question.

Yours sincerely,

H.G.L. Pilditch, Esq.,

MONTREAL.
