Dear Sir,

M.T. "Southern Enterprise"

Please find enclosed letters from Messrs Southern Line Ltd., Mombasa, in connection with amended limits of service for "Southern Enterprise" which is self explanatory, the vessel went into service on the 29th inst., my reports will follow shortly.

In connection with the other letter in respect of a proposed bulk cement carrier, I must mention that this Company is extremely pro-Lloyd's Register and have stated that they will purchase only Classed vessels in future, having had some unfortunate experiences in other directions.

Mr. Bentley-Buckle, the senior director is visiting London shortly and has requested me to give him a letter of introduction to head office to discuss the relevant points regarding the new vessel.

I am, Dear Sir,

Yours faithfully,

The Secretary,
London.
