16th August, 1926.

Dear Sirs,

I am in receipt of Mr. Millar's letter of the 2nd instant enclosing plans, approved by him, of midship section, profile and decks for a Steel Screw Motor Oil Tanker, Yard No.157, proposed to be built by Messrs. N.V.Boele's Scheepswerven en Machinefabriek, and the contents have been carefully noted.

The scantlings and arrangements as indicated on the plans have been examined and appear to be in order.

In reply to your request to be informed as to a suitable notation for the vessel, I am directed to acquaint you that the class which could be assigned would be 100A "Carrying Petroleum in Bulk" "For Service on the East Coast of Africa" with limiting ports to be assigned. It is noted, from the copy of letter forwarded by you, that particulars of the equipment have been requested.

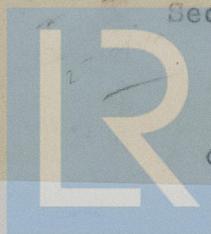

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

ROTTERDAM.

Secretary.
