

LLOYD'S REGISTER OF SHIPPING,

71, Fenchurch Street, London, E.C.3.

tract from the Classification Regulations of the Society :—

REPAIRS AND ALTERATIONS

Repairs

When the Surveyors consider repairs to be necessary, they will communicate their recommendations at once to the Owners, their representative, and if compliance therewith cannot be arranged, a special report will be made as soon as possible to the Committee.

All repairs to hull and machinery which may be required in order that a ship may retain her class in the Register Book are to be carried out under the inspection of, and to the satisfaction of, the Society's Surveyors. When repairs are effected at a port where there is no Surveyor to this Society, the ship is to be surveyed by one of the Society's Surveyors at the earliest opportunity.

Alterations

Particulars of proposed alterations to the approved scantlings and arrangements of hull or machinery are to be submitted for approval and such alterations are to be carried out under the inspection of, and to the satisfaction of, the Society's Surveyors.

APPEAL FROM SURVEYORS' RECOMMENDATIONS

If the recommendations of the Society's Surveyors are considered in any case to be unnecessary or unreasonable, appeal may be made to the Committee, who may direct a special examination to be held.
