We hereby certify that the material described above has been made by an Approved process and in accordance with the rules of the above mentioned Classification Society for Steel for Boilers, Pressure Vessels and Welded Machinery Structures of the specified Grade, and is that which has been satisfactorily tested in the presence of the Surveyor. The material is normalized from 920°C if heat treatment is required by the rules.

E. Caprani Winkel

Test House Manager

Material tested as required by the rules for test of the above mentioned quality.
