S.

Dear Sir,

Steamer "CITY OF CARLISLE".

With reference to Liverpool First Entry Report No.123744, on this vessel, I shall be obliged if you will request the Surveyors to furnish the weight of the estream anchor stock.

It is concluded no economisers are fitted in this ship, and in this connection, I would remark that in cases where superheaters and economisers are fitted, the heating surfaces of the superheaters and economisers should be entered in the reports, should they have come under the supervision of the Surveyors. You are doubtless aware these heating surfaces are now reflected in the machinery numeral for entry in the Register Book, and in the present instance the heating surface of the superheaters has been obtained from Glasgow.

Yours faithfully,

The Secretary,
LIVERPOOL.
