

"KUWAIT"

SUN S.B.+D.D. Co. YARD N° 567

The construction of this vessel's machinery was commenced under A.B. inspection.

At a later date, dual classification (L.R. and A.B.) was requested.

The position regarding the machinery is as follows:-

(1) Main machinery.

Materials of turbines and gears tested by A.B. Construction in shops completed under L.R. and A.B., also testing and installation. Materials of straight shafting tested by L.R.

(2) Boilers.

Built under L.R. survey.

(3) Electrical generators.

Machinery built under A.B. and tested in shops under L.R. and A.B.

(4) Electrical Installation.

Complies with A.I.E.E. regulations, and installed under L.R. survey.

No certificates covering electric generators or motors have yet been received.

Note. This vessel is for American Owners (GULF OIL CORPⁿ)

The New York Committee have assigned the special survey cross to the machinery and it is submitted for consideration whether this should be confirmed.

A somewhat similar case in which the was granted is that of the "LIMBURG" etc. (10 vessels for the Netherlands Government), see endorsement of 24.4.45.
