

Cantiere Riuniti Dell Adriatico, Monfalcone.Yard No.1775.

Received by Chief Ship Surveyor

Received from Chief Ship Surveyor

GB

SHIP'S NAME SS Steam Tanker "MIRELLA d'AMICO"

REPORT

Tri.

No. 13939

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Dimensions: 619.43' x 85.96' x 45.6'

After about 3,000 tons of steel had been tested by the L.R. Surveyors, the Owners instructed the Builders that the remaining steel (about 4,000 tons) should be tested by the Registro Italiano Surveyors only. Check tests on this steel were carried out and found satisfactory, in accordance with the terms of the Secretary's letter dated 7.5.52. It is therefore recommended that the Maltese Cross be not assigned.

The scantlings and arrangements, as reported, conform with the Society's Revised Rules and Regulations, and are in accordance with or equivalent to those shown on the approved plans.

IT IS THEREFORE SUBMITTED the ship is eligible to be classed:-

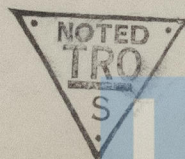

- ✓ 100A1 "Carrying Petroleum in Bulk"
- ✓ 12,53 Mfl. "Fitted for oil fuel 1,54 F.P. above 150°F"
