21st January, 1965.

Dear Sirs,

CLASSING LETTER

C
DNS/CB

5551 "CHUPRA". As recommended.

I shall be glad if you will confirm that the aft general service pump was examined at this time, in view of the fact that this item only appears on your Interim Certificate.

5613 "DIAMANTIS PATERAS". As recommended.

I shall be glad if you will furnish a sketch showing the position, length and depth of the cracks in the screwshaft, and state whether there was any corrosion and, if so, the extent of such corrosion and the purpose of the bronze ring mentioned in your Report should also be stated. It is not usual to fit such a ring, as the rubber compression ring should be renewed at each Screwshaft Survey and cut to the required breadth to give sufficient compression.

TAIPEI

64167 "EVER HAPPINESS". As recommended.

I shall be glad if you will forward the Plans of the alterations now effected as they cannot be traced as having been received in this Office.

Yours faithfully,

pro Clerk to the
Classification Committee.

The Surveyors,
YOKOHAMA.
