Please address  
further communications  
on this subject to  
THE PRINCIPAL SURVEYOR

The Secretary,  
London.

Dear Sir:-

Thank you for your letter of the 26th instant,  
respecting the Tanker "ANDROS VENTURE", the contents of which  
are noted.

Mr. Riddell is at present on holiday but I think  
it well to advise you that as detailed in Montreal First Entry  
Reports No. 9906, subsequent to the river trials the bearings  
and journals of the main turbines, the main gearing, journals and  
bearings and the two generating sets with their gearing were  
opened up and examined by the Surveyors at Quebec.

This examination could in no way be considered a  
normal procedure after a trial trip but was effected on Mr. Riddell's  
specific instructions in an endeavour to justify the Maltese Cross  
for the machinery.

We accordingly await the receipt of a further  
communication from you and should Mr. Riddell have any further  
comments to offer upon his return these will be forwarded to you  
immediately.

Yours very truly,

for Principal Surveyor for Canada
