

Assessment of Class (R) (~~XXXXXXXXXX~~ None)

SPECIAL SURVEY (D) due 5.56.

act from Trieste Classing Letter dated 12.2.54.

7 "VALVERDE". As recommended, except that the vessel's class  
been continued subject to one lugless shackle (supplied Ancona  
2) being replaced by a tested shackle before the end of March,

It is concluded that the Special Survey will be completed  
in 12 months, as it is observed that the next Special Survey  
not become due until May, 1956.

I would point out that in addition to the items enumerated  
complete the Special Survey the shell plating will require to  
rilled.
