10th May, 1919.

Dear Sirs,

With reference to your First Entry Report No. 71840 on the Steel Screw Steamer "WAR TAMAR", I shall be glad if you will be good enough to state whether the floors in the engine and boiler space are .34" and .40" respectively as required, and also give the size of the flat keel angles fitted clear of the double bottom, as this has been omitted from the report.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

NEWCASTLE.
