

to Chief Surveyors

Received from Chief Surveyors

21 DEC 1917

VESSEL'S NAME

20-12-17
S.S. Vsl. Lantona

Report

Low

No. 80053

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/22.)

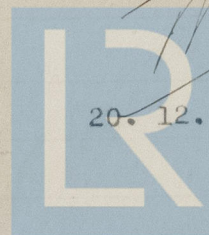

Date of Survey

When due

This vessel was classed in June 1917, subject to the inner surface of the bottom plating, which is coated with tar & cement, being examined within six months from that time.

The Owners now state that the vessel has been taken over by the Government and is on important service in the North of Scotland, and under these circumstances they will be glad if the Committee will postpone the examination required until a more favourable opportunity.

In the circumstances, it is submitted action might be deferred for the present.
