Received from Chief Ship Surveyor

125 NOV 1955

SHIPS NAME "SANTO"

REPORT

Osl.

No. 7833

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/52.)

A Half-time Survey became due 12,54.

The Owners' request to postpone this survey until 3,55 was approved 30.12.54 provided ship was found in satisfactory condition next drydocking in December 1954.

The OSLO Surveyors report (1,55) this wood ship examined in dry dock and the requirements of a General Examination for postponement of the Half-time Survey complied with.

The Surveyors further report on account of a defect in the machinery, ship remains laid up and the Owners have now stated that the machinery is to be removed and ship used as a barge, and accordingly they do not wish the ship to remain classed with the Society.

In view of the above the case is submitted for the consideration of the Committee.
