## Enclosure

f: Eng.

Dear Sirs,

m.v. "SANTO"

I am in receipt of your letter of the 31st ultimo re-submitting the copy of the revised plan of the electrical installation of the above ship, which was returned to you with my letter of the 28th August.

The plan has been re-examined in conjunction with your remarks, but I have to say that the schematic wiring diagram of the main switchboard is still obscure. It is concluded, but I should be glad to receive your confirmation, that the arrangements are generally in accordance with the attached sketch, which has been prepared in this Office, and that it is not intended that the two generators will be run in parallel. The function of the switches marked A & B on the plan is not clear.

In the circumstances I shall be glad to receive your comments on the foregoing, as soon as possible, one copy of the plan and a copy of the sketch referred to above being enclosed for reference purposes.

Yours faithfully,

pro Secretary.
