

Enclosure.

6th July, 1981.

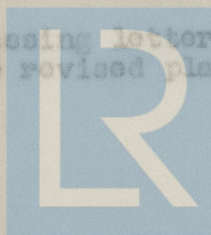

OSLO.

ABRAHAM LARSEN" I have to acknowledge the due receipt of your letter of the 21st ultimo and to acquaint you that the plans of press boilers and separators have been examined in this Office and the scantlings as shown thereon are found to be such as could be accepted for the stated working pressure of 4 Kg. per square c.m. The Committee have accordingly now assigned to the vessel a record number R.B.S. 3,50. One set of the plans (3) is returned herewith.

It will be observed that a fresh Press Boiler Survey became due last month, and it is concluded that this will now be receiving attention in conjunction with the Main Boiler Survey at Sandefjord.

I have further to acknowledge the receipt of your letter of the 14th ultimo with enclosure, and your further reports are awaited.

"WTO" With reference to my classing letter of the 29th May last I shall be glad to learn when the revised plan of electrical installation may be expected.
