GRENIMEL 6  
REYKJAVÍK.  
ICELAND

24/5/60

Dear Sir,

S.s. "Gyllir" and s.s. "Guðmundur Júní".

The above vessels will be loaded with scrap iron, and it is intended that the "Gyllir" will tow "Guðmundur Júní", which boiler will probably be removed ashore here.

I will be able to let you know later the date when the vessels will be broken up. It might be that the "Guðmundur Júní" will be altered into a cargo boat, and diesel engine installed, in case that should be done I will contact you later about that, as it is intended she will continue to be classed with Lloyd's and the alteration would be carried out here.

The Secretary  
Lloyd's Register  
London.

Yours faithfully,

Viggo R. Jessen
