

16th July, 1955.

Encllosures.

S. Dear Sir,

As arranged over the telephone, I enclose herewith the latest classification and load line certificates for the Steamer "GEOLOGIST", covering the last Special Survey held in November, 1952, the Boiler Survey held in December 1954, the last inspection in drydock carried out at Glasgow at the end of May last and the Screwshaft Survey held in October 1952. The copy of the Load Line Certificate shows that this was valid until the 3rd November 1957 and that the last Annual Survey was held at Manchester on the 16th December, 1954.

In transmitting these to the Owners I shall be glad if you will inform them that, at the time of her casualty, which was greatly deplored, she was in class with no periodical surveys overdue, and that there were no conditions whatever attaching to her class.

I am, Dear Sir,

Yours faithfully,

The Secretary,  
LIVERPOOL.

Clerk to the  
Classification Committee.
