

"KOWA MARU"

Vessel built 9.59.

Class withdrawn at Owners' request 8.63.  
No outstanding surveys, valid records of ABS  
10.62 and TS(CL) 10.62 having been assigned,  
no conditions of class.

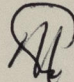

The machinery and boilers of this vessel  
were constructed and installed under survey  
by the Society's Surveyors 9.59, Class being  
withdrawn at Owners' request 8.63, in the  
Owner's letter of 17.7.63. In the interval  
the vessel has undergone N.K. Surveys.

It is submitted the Owners be informed  
as follows:-

The notation 'Machinery Classification  
Contemplated' can be assigned on the  
completion of a satisfactory General  
Examination of all machinery and boilers  
under working conditions during a short  
sea trial. The Windlass & pumping arrange-  
ments to be tried and electrical installation  
megger tested. It is concluded that a  
complete ABS was held by N.K. 11.65.

For full classification and assigning  
the notation +LMC it will be necessary to  
carry out a screwshaft survey, also a  
steam pipe survey.)

→ The extent of the machinery survey  
will be decided when N.K. records of their  
CSM are received. In this connection  
a form 7E should be forwarded to YKA  
Surveyors so that they can fill in the  
N.K. Survey dates. Particulars of any  
major alterations or renewals since 8.63  
to be reported.

  
19.4.66.
