RECEIVED

BOARD REPORT on the "KOWA MARU"

The Rft C11 has been examined and is considered to be in order. Submitted the Surveyors be informed that it is concluded the hinged w. T. flaps fitted to the goose-neck vents and all air pipes are of an approved type. It is also concluded the exposed superstructure and free board decks are provided with sufficient scupper and that the chain locker is efficiently drained but these points should be confirmed. 9/1/60
