Dear Sir,

S.S. "OLINDA"

I acknowledge receipt of your letter dated 8th March, the contents of which have been noted.

In the circumstances and as a temporary measure the Chief Engineer's suggestion can be accepted provided that when comparing the pressure gauges the firing and steaming conditions are similar and the connecting valves full open. If possible all three boiler gauges should be checked against each other.

Yours faithfully,

pro Clerk to the
Classification Committee.

A.S.V. de Melo Esq.,
MORMUGAO
