Dear Sir,

Classing Letter
076 - "TRANDESCO NULLO"

With reference to your letter of 19th June regarding the auxiliary engines for the 400 KVA Alternators, we have to advise you that as these engines were partly constructed under P.R.S. supervision no Report 4c has been prepared. Instead a factual certificate (copy of which was sent with our report) was issued for these engines as per the instructions given in your letters of 9th April 1963 (B 41/01) and 21st November 1962 (B 454/01 & 02).

We trust that our action in this instance is correct and will be obliged if you will confirm accordingly.

Yours faithfully,

For the Surveyors.

The Secretary,
LONDON.
