26th August, 1959.

Classn. (S) Dear Sirs,
DHGK/PL

Motorship "HEDDA DAN"

I have to inform you that Baltimore First Entry Report No.11679 recently received the consideration of the American Committee. The ship has now been classed 100A1, LMC 6.59 with a record of Drydocking 6.59 and the notations SS 6.59, Screwshaft Examined 9.58, Donkey Boiler Survey 6.59 and Steam Pipe Survey 6.59.

Class is subject to the tubes of the oil fired boiler being renewed before the end of September, 1959, and to the safety valves of the oil fired and exhaust gas boilers being adjusted under steam. You should also inform the Owners that to complete the survey the evaporator requires to be examined, its safety valves adjusted and all lubricating oil coolers examined.

I shall be glad to learn what arrangements the Owners propose to make for the above mentioned matters to receive attention.

Yours faithfully,

pro Clerk to the
Classification Committee.

The Surveyors,
COPENHAGEN.
