

WOKINGHAM COPY.

30th April, 1941.

Dear Sir,

With reference to Glasgow First Entry Report No.63686 on the machinery of the motorship "EMPIRE GAT", I may say it is concluded additional means are provided for circulating water through the main engines, also that the remaining auxiliary engine is sufficient for essential services at sea but I shall be obliged if you will kindly obtain the Surveyors' confirmation on these points.

With regard to your letter to the Leith Surveyors on the 16th instant regarding Glasgow Report No.61093 on the auxiliary engine, I think it well to remark that up to the present this ^{report} has not come to hand.

I am, Dear Sir,
Yours faithfully,

*Get 61093 in
