

Motorship "PERICLES"

Mr. Hatton of the Liverpool Office has been informed over the telephone today that it will be quite in order for the Liverpool Surveyors, after General Examination, to issue a certificate recommending maintenance of class until the ship reaches Italy.

It is now noted from the Owners' letter of 9th instant that they do not wish class to be withdrawn until the ship reaches Italy, and implementation of the Committee's decision on 16th instant should therefore be deferred until the vessel's arrival at La Spezia.
