Exhaust Gas Boiler.

EXHAUSTKJELE.

Bekrefter hervedat vi hadde full kjelesjau på exhaustkjele i  
Mai måned 1954.

Armaturen ble overhaldt, topp og bunnlekk ble pakket om og kjelen  
trykkprøvet med vann.

Sikkerhetsventilerne ble overhaldt 14 mai 1954, og trykkprøvet i  
sjöen 23 mai 1954, med åpningstrykk 150 Lbs/kvadrat tomme.

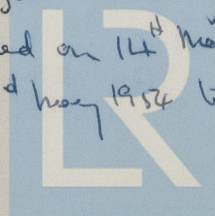

Alt i full orden.

Thor Kvinge  
Kaptein.

Anders Juessen  
Maskinsjef

We declare herewith that we had the exhaust gas  
boiler opened up in May 1954.  
The valves were overhauled, top & bottom covers were  
rejointed and the boiler hydraulically tested.  
The Safety Valves were overhauled on 14<sup>th</sup> May 1954 and adjusted  
under steam at sea on 23<sup>rd</sup> May 1954 to a pressure of 150 lb/sq  
all was in order.
