See letter re  
service limits

Any openings not shown on this approved plan  
which may be cut in the hull or shell plating are to  
be properly framed and adequate compensation  
provided to the structural resistance. The loss of structural  
area of longitudinal material is to be restored by  
doubling or increasing thickness of plating in way of  
and around such openings. Adequate compensation is  
also to be fitted for the cutting of other strength  
members in the structure as may be necessary.
