Dear Sir,

A first entry report (Montreal No.6655) was recently received on the motor vessel "SAULT-AU-MOUTON" built by Geo. T. Davie & Sons Ltd. of Lauzon, Port Quebec. This vessel was engined by Messrs. Fairbanks Morse & Co. of Beloit, Wisconsin - the engine numbers were 867323 and 867331, and they were duly reported in Chicago Report No.959.

On checking the first entry reports here, it is found that calculations for the torsional stresses in the shafting have not been submitted for consideration and before the case is confirmed by the Committee, I have to request you will obtain and forward the necessary particulars.

Yours faithfully,
