Dear Sir:-

"YSW 220"

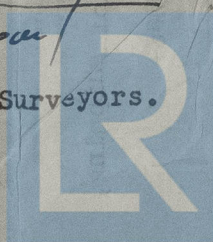

We have to acknowledge receipt of your letter dated 1st instant and have to advise you that we have been informed by the Commodore Superintendent, Pacific Coast, Esquimalt, B.C., in a letter received today, that the instructions have now been received from Naval Headquarters to take in hand the fitting of non-return valves to the bilge suction line in the forehold of "Y.S. W. 220".

Our Reports will follow when this has been attended to.

Yours faithfully,

[Signature]
For the Surveyors.
