London.

11 9 MAY 1958

Ans'd

Dear Sir:-

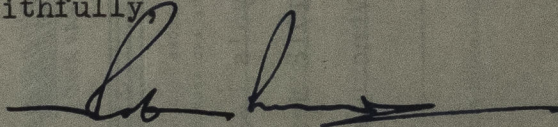

R.C.N. Water Boat "Y.S.W. 220"

We duly received your Classing letter of the 22nd ultimo regarding the above mentioned vessel, Vancouver Report No. 10246. The matter of the non-return valves which require to be fitted to the bilge suction in the forehold has been again raised with the Naval Authorities at Esquimalt, B.C.

We are now in receipt of a letter from the Commodore Superintendent, Pacific Coast, stating that the question has now been referred to Naval Headquarters requesting an early decision and it was stated we will be advised when a reply is received.

We shall advise you of developments in due course.

Yours faithfully,

For the Surveyors.
