Your Ref.....

Our Ref.....

Dear Sir,

"AKI MARU"

Whilst the above ship was recently under survey at this Port, conversion to a floating fair was carried out. This temporary arrangement as a floating fair will be for approx. 3½ months until the 18th February, 1961.

Although no alterations were made that would effect the freeboards the Nippon Kaiji Kyokai decided that the freeboard should be increased and enclosed is a C12(a) giving details of the new freeboards assigned and marked on the ships side. ✓

At the end of the above period the ship will revert to her old freeboards an originally assigned. //

Alterations were made to some interior bulkheads and these have been reported on a report 8.

Yours faithfully,

For the Surveyors.

The Secretary,
LONDON.
