FREEBOARD REPORT on the

AKI - MARY.

It is submitted the C12a be returned to the
 Surveyor and he be ~~for~~ requested to forward a
 correct one stating what deck the freeboards
 are marked from and whether wood or steel.
 He should be informed that from the depths,
 thickness of stringer, and freeboard of 212' given
 on Rpt 1 the moulded draught would
 appear to be 27'-6³/₈ he should therefore
 examine this point as his figures seem wrong
