Ans...

Dear Sir,

m.s. "LUCIANO CASTRO"

In reply to your letter of the 24th ultimo, it is my belief that this ship will not come under survey this month.

I was speaking to the Owners last week in the Average adjusters office, with regard to claims for the broken screwshaft, and he was very evasive when I asked him when the ship would be drydocked for permanent repairs to the bottom plating.

Yours faithfully,

J. L. Laway

For the Shipowners

Yours faithfully

reverts to the bottom blasting, and the ship would blow up and he was very angry with me for the reason that the vessel was damaged by the explosion of the dynamite.

I was speaking to the Owners last night and they agreed that the ship will not come under survey this month.
